

GT890 IP DESKTOP VIDEO PHONE

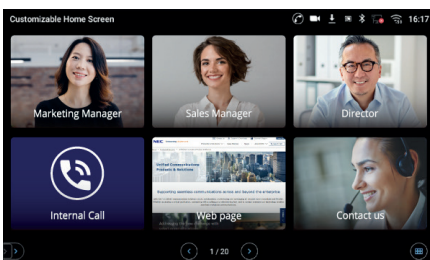

Customizable Home Screen

NEC's Customizable Home Screen (CHS) app is tailored to exclusively work on NEC's GT890 IP Desktop Video Phones. With this CHS app the 7" color touch screen of the video phone can be divided into several intuitive and engaging tiles. Each tile can be configured to access a website, make a call or launch an application with just a single tap. It provides an intuitive and productive way for users to interact with the phone and your business. In addition, with the reservation management feature of the CHS App, users can make, change and cancel reservations as well as manage customer data. Call reception and reservation management on a single device, designed to make management simpler, smoother and quicker.

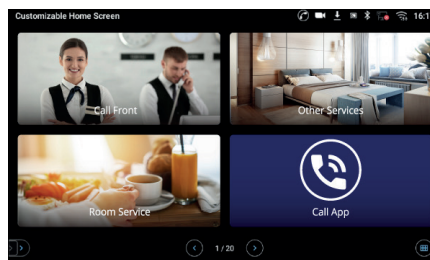

GT890 Customizable Home Screen AT A GLANCE
